

SHIFTING GEARS

2020
ANNUAL REPORT

EXECUTIVE DIRECTORS MESSAGE

As 2020 began, The Oklahoma Caring Foundation was cruising to have one of our most successful years yet.

Then in March, we hit a speedbump, the COVID-19 pandemic, and we had to downshift our programming and eventually put the Caring Vans in park.

The Caring Vans didn't sit idle for long, in April and May the vans were utilized to assist with mobile COVID-19 testing clinics through a collaboration with the Oklahoma State Department of Health, the Tulsa Health Department and the Oklahoma City-County Health Department. The vans served in an administrative role to transport nursing teams, store testing

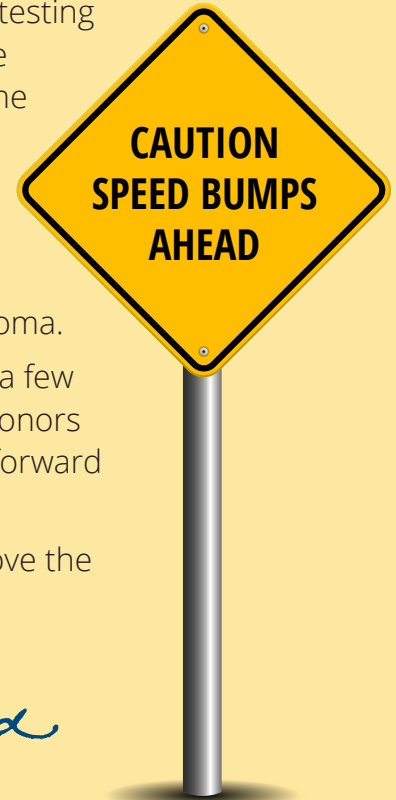

supplies and to serve as a breakroom for nursing staff who needed to make phone calls, complete paperwork or come in out of the elements. In total, the Caring Vans assisted with 14 mobile COVID-19 testing clinics where 883 tests were administered.

In August, Caring Van clinics resumed and the vans were back on the road with new COVID-19 safety processes and procedures in place, allowing our team to further our mission by driving results in communities across Oklahoma.

Like the rest of the world, our program had to shift gears in 2020, and take a few detours, but with directions from our board, longtime partners, generous donors and dedicated staff, we were able to keep the Caring Van Program moving forward providing access to preventive health services to those who need it most.

Thank you for your support of our mission and for the opportunity to improve the health of Oklahomans, even during a worldwide pandemic!
